

# Uniwell Lynx *for bakeries*

The smart software solution for managing your  
Uniwell POS terminals

[lynxsoft.net](http://lynxsoft.net)

Uniwell Lynx is packed with easy-to-use tools and analysis reports designed to complement your bakery and grow your business

### Smart Reporting

An extensive range of practical reports to help manage your bakery! You can even have them sent to your smart device.

### Staff Attendance

Allowing your staff to log on and off at your POS terminal and then providing an accurate record of their attendance.

### Easy Price Updates

Simply edit your selling prices and then send the updates to your POS terminals... it's that easy!

### Scheduled Communication

Set and forget scheduler for communication with your POS terminals and producing reports.

### Customer Accounts

Optional Customers module for managing customer accounts and loyalty. Track, analyse and build your customer base.

### Multi-Location

Our optional Multi-Location module allows you to analyse sales and perform stock control across multiple locations.

### POS Programming

Quickly and easily maintain an extensive range of POS program options from your back-office computer.

### Easy to Use and Feature Rich

Uniwell Lynx is packed full of features to save you time and help you analyse and grow your business!
